I am a full stack web developer with a passion for designing beautiful websites and writing clean dynamic code. I love to work with others in a team environment, but I am also capable of working individually to accomplish tasks. I am alway on the lookout for ways to optomize our workflow while using interpersonal skills to better accomplish goals.

SKILLS

· HTML, CSS

· JavaScript

· Bootstrap

· React, React Native

· Handlebars

· Node.JS

· MongoDB, Express

· Mongoose

· REST

· Git

·Postman

· Adobe XD / Figma wireframing

WORK EXPERIENCE

Full Service Funnels, — *Jr Web Developer*

Corvallis, OR | Jan 2022 - Nov 2022

· Developed an eye for design after building responsive ecomerse websites that require excellent web fundamentals.

· Used skills with HTML, CSS, and Javascript to accomplish clients requests by building web sites, javascript logic, bug fixing tasks, or rebuilding existing websites as requested by our clients

· I am passionate about optimizing workflow by using dynamic variables, object-oriented data, and javascript to automate multiple steps following best practices while writing documentation and coordinating with our team.

Samaritan Health Services, — *Telemetry Technician*

Corvallis, OR | March 2018 - August 2020

· Assisted the nursing department by monitoring patient cardiac rhythms. Showed strong attention to detail in identifying any appearance of arrhythmias, abnormalities, or significant cardiac baseline changes.

·In charge of the administrative assistant duties for the nurses working on the progressive care unit including; assisting with communication between the nurses and the doctors, organizing patient data, and maintaining full supplies on the unit.

Safeway, — *Bookkeeper/Front End Manager*

Corvallis, OR | June 2011 - March 2018

·Key responsibilities consisted of running the customer service desk, handling returns and complaints, auditing the tills throughout the store, and handling requests over the phone.

·Frontend manager duties: handling the problems that would occur in the check stands, emphasizing great rapport with customers, managing clerk tasks, and in charge of employee breaks.

EDUCATION

Full Stack Web and Mobile Development
Nucamp Coding Bootcamp
2021 – 2021, graduated with Honors

Front End Web and Mobile Development
Nucamp Coding Bootcamp
2021 – 2021, graduated with Honors

PROJECTS

Dynamic Ecomerse Website Template, — *Bootstrap Handlebars*

·A dynamic template that can be cloned and easily updated to meet the clients needs with adjustable variables stored in a json file. Includes dynamically updatable variables like: corp info, billing descriptor, contact information, theme colors, hero image sequencing system, dynamic checkout terms and product slug system.

Restaurant Randomizer, — *React Native ios/Android*

·A React Native random restaurant chooser app using the Yelp Fusion API. It renders a detailed card of a restaurant using UI/UX specifications in a search bar calling the Google Places API. I have included a button to randomly choose another restaurant near the user's imputed zip code, city name, or a street address.
